- Population – 12.33 million

DETAILS

This "São Paulo Highlight Tour" cruises through the architecture long left in the past, all the way to the most modern tendencies in the current age, and it is the astonishing works of brilliant minds, both national and foreign that will carve the most special memories for you.

It becomes clear in cruising through the big metropolis that the many styles and eras of the world have left several hints of its presence on our architecture, which has certainly become one of our greatest points of pride.

Some of the prime examples of our astounding foundations are: the old Municipal Theatre at the Ramos de Azevedo plaza, Monastery and Church of São Bento, the Copan building, bohemian Vila Madalena neighborhood and the MASP building, all of which is present in our tour.
